BATUU

TEMPLE LOGO STYLE GUIDE

SITH™
DYNASTY

This document outlines the official guidelines for the use of the Batuu temple logo of the Sith Dynasty.

**Any alterations, reinterpretations, or unauthorized uses of the logo are strictly prohibited.**

All proposed variations or special applications must receive formal approval from the Sith Dynasty Art Director/Chief Branding Officer prior to implementation. Compliance with these guidelines is mandatory to preserve the integrity and power of the Sith Dynasty's identity.

The creation of these logos represents a tremendous amount of thought, effort, and dedication. Each design has been carefully crafted to meet the standards and guidelines set forth by the LFL, while also establishing a distinct and powerful identity for every temple within the Sith Dynasty.

Beyond aesthetic value, great care has been taken to ensure these symbols are versatile and practical-designed to be easily reproduced across a wide range of mediums, from print to digital platforms and beyond.

As we enter the 10th year of the Sith Dynasty, it is our hope that these emblems will serve not only as the mark of each temple, but as enduring symbols of unity, strength, and our shared future.
May they stand as beacons of identity and pride for all who walk the path of the Sith.
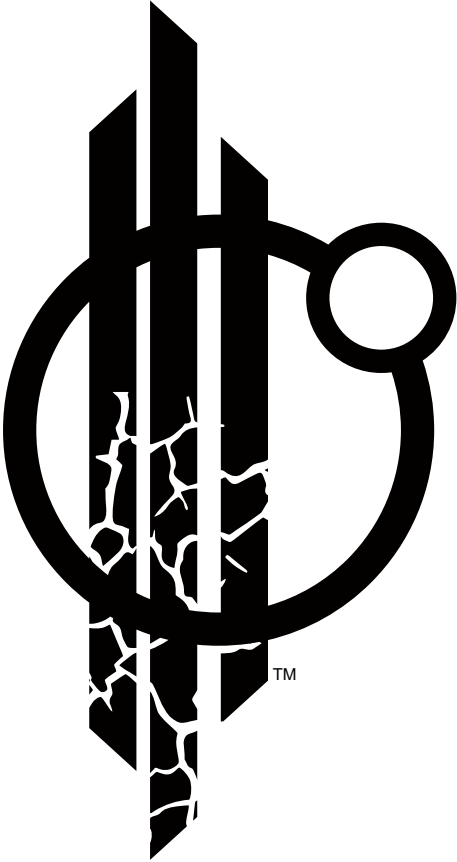

Primary Logo Mark
Suggested use is over Dark Background

™

- PMS: 3248
